1. Login Procedure

Use the following procedure to log in to a registered account.

Procedure

[1] Click "Sign In" at the top of the Kubota Engine Park site top page.

[2] On the login page, enter the user name and password, and click "LOG IN."

[3] The following screen will appear to select the two-factor authentication method only when logging in for the first time. Please set it accordingly. (You can change it later*1)

The two-factor authentication options below are available. Please choose the one that is convenient for your environment.

(1) Email One-time code : Receive an one-time code by email.
(2) Authentication App : Receive an one-time code via the authenticator application※.

※The following three authenticator applications are available.
Please download the software from the AppStore or Play Store and set it up.
 • Google Authenticator
 • Microsoft Authenticator
 • FreeOTP

(NOTE) iPhone, iPad, and Android smartphones and tablets are available.
Not available for PC or Mac.

How to change two-factor authentication settings after login *1

1. Click "Two-Factor Authentication Settings" icon in the upper right corner of the site top page screen.
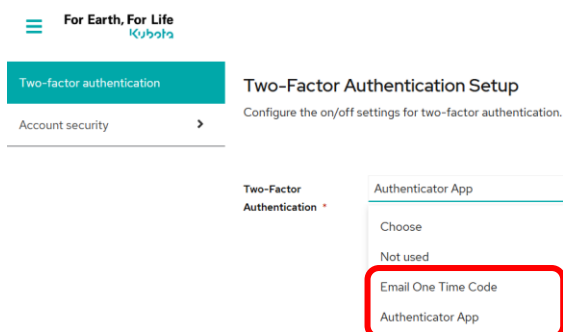

2. Select your preferred method and click "Save".

Log In and Out

①When "Email One-time code" is selected

You will receive the 6-digit one-time code with the subject "Kubota Engine One-time code" at your registered email address as follow. Enter the code within 5 minutes and click "Log in".

Received email（example）

Click here to resend the one-time code.

Enter the 6-digit one-time code you received via email and click "Log in".

②When "Authenticator App" is selected

I) When registering a new authenticator application or adding an application.
    (The following screen will appear only when registering for the first time)

※Three authenticator apps are available.
   Download one of them from AppStore or Play Store and set it up.
   • Google Authenticator
   • Microsoft Authenticator
   • FreeOTP

※iPhone, iPad, and Android smartphones and tablets are available.
Not available for PC or Mac.
